

Senior Designer – Toronto

Job Overview

Engineering Harmonics is looking for a highly motivated Senior Designer to join our Toronto practice. Our designers are responsible for developing unique solutions and ensuring that they are fully coordinated with other disciplines. With our consultants you will drive client experiences through innovative design and thorough execution.

- Lead the development of detailed design packages
- Lead and review budgets and technical specifications
- Oversee commissioning sessions

Coordination and Quality Assurance

Attend project meetings, site reviews and design reviews

Knowledge

AV design with minimum 5 years' experience including:

- current and emerging AV technologies, networked AV and control systems
- AV capture, storage and retrieval
- video walls and digital signage
- sound-reinforcement and audio/video conferencing
- infrastructure (drawing packages and schedules, sightline studies, conduit risers, rack and panel layouts)

Education and Skills

- Ideal candidates should possess a 4-year degree, preferably a BS in acoustics, engineering, science, or college equivalent, possession of current CTS-D and manufacturer certifications
- Excellent communication skills both oral and written
- Track record of overseeing design staff
- Proficient in MS Office, AutoCAD and familiarity with industry best practices and standards as well as building codes. Revit, Bluebeam and EASE proficiency is an asset
- Network design experience is an asset

Role and Responsibilities

- Work in a team environment for Design/Bid/Build, P3 Compliance and Design Build projects

Security and Benefits

- Able to obtain government security clearances and travel
- Full benefits package
